Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. (after amendment in FY 2009)

Class I Specified Chemical Substances

Class II Specified Chemical Substances

Monitoring Chemical Substances

Priority Assessment Chemical Substances (PACs)

Canceled - Priority Assessment Chemical Substances

Specified General Chemical Substance

Newly Announced Chemical Substances

Newly Announced Chemical Substances

Substances under the Chemical Substances Control Law

Priority Assessment Chemical Substances (PACs)

Priority Assessment Chemical Substances are substances for which it is not clear whether the substance has a risk of long-term toxicity for humans or flora and fauna in the human living environment, which are found to remain in the environment in considerable amounts or are expected to remain in such a situation, and which are found to be likely to damage humans or to damage flora and fauna in the human living environment; they were therefore given public notice pursuant to the Chemical Substances Control Law as chemical substances that are found to require priority assessment of the likelihood of the chemical substances having the above risks.

*If the MITI number column is displayed "-", please see the detail information screen.
In addition, please note that the remarks column does not contain all the information.
